Full-stack Web Designer & Developer with 4+ years of experience building and maintaining responsive, high-performing web applications for the finance sector, and delivering a live production website at rrfinance.com. Strong in ASP.NET Web Forms, C#, and SQL Server on the back end, with front-end expertise in HTML5, CSS3, Bootstrap, JavaScript, and jQuery. Hands-on SEO and e-commerce product listing/product catalog management experience, along with SQL query optimization and performance tuning. Pursuing an MCA at GLA University (CGPA 8.87 through Semester IV) and interested in contributing to Infosys as a UI Developer (Angular/React).

JavaScript | HTML5 | SQL Server | React | Angular | ASP.NET Web Forms | C# | Node.js | jQuery | Bootstrap | CSS3 | Search Engine Optimization (SEO) | E-Commerce Product Listing | Product Catalog Management | REST API Integration | Cross-Browser Compatibility | Responsive UI Design | Database-Driven Web Applications | Debugging & Performance Tuning | Object-Oriented Programming (OOP) | DBMS | Web API | ADO.NET | TypeScript | Frontend Development

WORK EXPERIENCE

Full Stack .NET Developer-RR Financial Consultants Ltd — **Jan 2022 - Present**

- Design and develop responsive, production-grade pages and modules for rrfinance.com, a live corporate finance platform, using **ASP.NET Web Forms**, **C#**, and **SQL Server**.
- Build and maintain dynamic front-end interfaces with **HTML5**, **CSS3**, **Bootstrap**, **JavaScript**, and **jQuery**, ensuring consistent performance across browsers and devices.
- Apply SEO best practices, including clean page structure, meta content, and performance improvements, to support search visibility.
- Create and manage e-commerce product listings and product pages, keeping catalog content accurate and easy to browse.
- Manage SQL Server databases by writing and optimizing queries to support application data needs.
- Own front-end architecture as a senior developer, mentoring junior team members and reviewing code for quality and consistency.
- Collaborate with cross-functional teams to turn business and UX requirements into well-structured web features.

Frontend Designer-Website Design — **Oct 2021 - Feb 2022**

- Develop HTML, CSS, and JavaScript components for client websites with a focus on UI/UX best practices.
- Work with senior developers to translate design mockups into functional, browser-compatible web pages.

PROJECTS

rrfinance.com — Corporate Finance Website

- Built and maintain a live, production website using **ASP.NET Web Forms**, **C#**, **SQL Server**, **HTML**, **CSS**, **Bootstrap**, and **JavaScript**.
- Implemented responsive layouts and interactive UI components to improve usability for corporate finance clients.
- Ensured stable uptime and performance for a **business-critical, client-facing** platform.
